# CATTAI PS KINDERGARTEN

2023 TRANSITION

## WHAT TO BRING

---

- Drink bottle with water.
  - Small container with a small amount of fruit or vegetables.
  - A hat
  - A big smile
  - Names on EVERYTHING
- 

## WHAT TO EXPECT

---

The purpose of these transition visits is to familiarise you and your child with the "big school" environment. Your child will visit the kindergarten classroom, school library, the playground and other important areas of the school..

---

Kindergarten 2023 students will meet their buddies (Year 4 & 5 2022 students) on their first transition day. They will participate in early learning activities with their buddies, lead by their teacher for 2023.

---

Each session will include typical Kindergarten Literacy and Numeracy lessons and either a Science, Geography, History or P.E activity as well as time for developmental activities, games and crafts.

---

We will also have a crunch 'n' sip break during this time. Please send a labelled container with some small pieces of fruit or veg and a bottle of water.

---

Parents are encouraged to attend the information session that will inform you about the Kindergarten curriculum, school uniform, routines and organisation. A P&C representative will be there to discuss roles within the P&C and how you can help too. This will be held on the first orientation day. A light morning tea to follow. Younger siblings are welcome.
